**DETAILED ACTION**

1. Applicant's amendment filed on 01/04/2009 has been received and entered in the case.
2. Applicant's amendments and/or remarks with respect to the claims have been fully considered and are persuasive.

***Allowable Subject Matter***

3. Claims 1-27 are allowed.
4. The following is an examiner's statement of reasons for allowance:

**Claims 1 and 10:** In view of the limitations the prior art does not explicitly describe or reasonably suggest a method or a computer program stored in a computer readable medium for identifying an incoming peak traffic condition in an elevator system wherein the method or steps to execute the computer program include defining a threshold value of car calls, on the basis of which a peak elevator is identified if the number of car calls to floor outside the lobby area exceeds the threshold value of car calls; collecting statistical data regarding the number of passengers arriving to a floor and those leaving the floor during a predetermined time window and selecting the prevailing traffic type as an incoming peak traffic condition if at least one peak elevator has been detected and the collected statistical data for the current time window indicates an incoming peak traffic condition.

**Claim 19:** In view of the limitations the prior art does not fairly suggest alone or in combination a system for identifying an

Art Unit: 2837

incoming peak traffic situation in an elevator system in which an elevator door light cell counts the number a passengers entering and leaving the elevator; a control logic for recognizing car calls for identification of a peak elevator for management of traffic flow and control of the elevator system in combination with a database that collects statistical data comprising the numbers of passengers arriving to and leaving the floor during predetermined time windows wherein the control logic interprets the prevailing traffic type as an incoming peak traffic condition if at least one peak elevator has been detected and the statistical data collected indicates an incoming peak traffic condition.

### ***Conclusion***

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
